

**characteristics Laboratory Basic 1 with glides**

Article: 9132 fabric

Dimensions in mm	Backrest:	H:	530
	Seat:	H:	470-610
		B:	460
		T:	440
Packing data	Weight	kg	16,5
	Volume	m <sup>3</sup>	0,16

**Base equipment**

**Benefit**

Laboratory qualification	Special art. Leather surface with antibacterial, antifungal and antimicrobial capacities.	Laboratory-appropriate equipment. Washable, disinfected and easy-care.
Backrest	Large, ergonomically designed backrest to take the strain off the spine and muscles with integrated lumbar support.	Healthy posture due to a hump providing support for the back in the lumbar region.
Seat	Backrest height adjustment convenient and easy to handle in sitting position. Ergonomically designed seat with rounded front edge.	The support area can be adapted in accordance to the user's body size. The round front edge of the seat prevents blocked circulation in the thighs.
Seat and backrest design	Fabric upholstery: Resistant, respiratory and comfortable fabric Duotec Selectable in following colours: Black (6801) Blue (6802) Grey (6811) Red (6803)	This high-quality fabric upholstery is breathable and can both absorb and expel moisture. The extremely soft surface guarantees maximum comfort.
Seat height	Stepless seat height setting from 470 - 610 mm supported by safety gas spring with protective cover.	Seat height can be adapted to nearly 95 % of all body sizes, the cover protects the gas spring from dust and dirt.
Technology	Permanent contact backrest with additional seat inclination adjustment.	This mechanism ensures that the backrest responds immediately to any movements of the upper body by following them. Thus, the back remains supported all the time. The backrest can also be locked into any tilt position if required.
	Quick adjustment	There is a continuously variable mechanism for tilting the seat forwards. This ensures that your posture remains relaxed even when you need to bend forwards into your work. Less pressure is exerted on the thigh area, which encourages steady circulation. The problem of sitting all hunched up is masterfully avoided thanks to a mechanism that ensures a minimum angle of 90° between your legs and upper body at all times.  Every function can be operated comfortable and easy in sitting position.
	Anti-Shock lock	The backrest cannot accidentally spring forwards even after the lock has been released.
Base	Black 5 star base made from steel shape tube, powder-coated, black. Flat design.	Very high stability, longevity. Flat design prevents stumbling hazard.
Glides	Wearproof plastic glides with a large surface area.	Offer a superb level of stability.
