Sustainability:

Down to the last minute detail, UPIS1 follows the Interstuhl philosophy and combines modern seating with efficiency and applied sustainability: 50% of the product is made from recycled materials. Completely without composites and bonding agents. UPIS1 offers quality and longevity. This is reflected in the 10-year manufacturer guarantee.

Sven von Boetticher

Product design:

UPIS1 effortlessly and attractively combines two approaches: motion and mobility at the work station. In doing so, it offers a flexible solution for temporary collaboration in any place, at any time, for any occasion. At the same time UPIS1 also encourages motion as a seat in itself: the rounded base allows for flexibility in all directions and erases the supposed conflict between sitting and motion. Simplicity, intuitive operability and clear, reduced forms allow UPIS1 to fit any architectural surrounding. The eye-catching red belt strap plays the double role of adjustment handle and characteristic design attribute, bringing the casual functionality of UPIS1 to the fore. UPIS1 was developed by Sven von Boetticher's award-winning design agency ID AID.

UPIS1

ENJOY SEATING PERFORMANCE.

UPIS1
KEEP MOVING!

UPIS1 sets your daily routine in motion. The intelligent multifunctional stool follows its owner through spontaneous conversations, workshops, meetings and brainstorming sessions, keeping the user mobile and the agenda flexible. With five colour variations it is an upbeat product that seamlessly fits any room. Additionally, thanks to the infinitely variable height adjustment it provides uncomplicated seating comfort.

Fresh ideas are a matter of position. UPIS1 makes for dynamic seating and thinking: The stool with its round base acts as an active invitation to move. As the ideal co-working solution it is present wherever spontaneous and creative minds come to work together.
